Complaints continue to be made of the conduct of British war vessels, on the coust of Cuba, towards American merchantmen. Another fatal milroud accident, resulting in

the loss of three lives, occurred on the Indianapolis and Lafayette B. R., Friday night. The Coroner's Jury, in the case of the accident at Sat quoit Creek, on the New York Ceafiel Railroad, have severely but justly consured the R. R. Company for gross neglect in not

removing, or repairing, the defective bridge. Both Houses of the Legislature were hard at work all day Saturday and got through a large amount of business. It is thought they will finully adjourn to day. The capitol removal bill was killed in the Assembly by a tie vote, 41 to

A very destructive fire occurred at New Albany, Indiana, on Saturday. Seven locomotives, a dozen or two cars, and much machinery was consumed. Loss \$250,000.

Not much change in the New York produce market, Saturday. Wheat was firm and rather active. In our market, with lighter receipts, the feeling was heavy and prices rather lower. Our usual weekly review, containing much interesting statistical information, will be found in this

Removalor the Capitol.

The bill for the temporary removal of the Capitol 1 Milwaukee, which was introduced by Mr Brau on Monday last, and ordered to a third reading on Filibay by 7 majority, 20 to 32, was lost in the Assembly, Saturday, by a the vote. The question excited great feeling and not a little alarm among the Madison people, and while they were voluble in their denunciations of the Milwaukee lobby," Milwaukee corruption, &c., they did not hesitate themselves to induce the they did not hesitate themselves to make use of all sorts of arts and applicaces to influence the sight.

The Assemby was filled with spectators, Saturday merthing, in anticipation of the vote, and there was a full attendance of Members; overy member in town being present and voting, except Mr. Hawtzy, of Wankeshs, who voted the hardly possible that they could have failed. for the bill on Friday, and purposely absented

When the question was put upon the passage of the bill, the vote stood, Yeas 41, Nays 40.—
Mr. Knowledge, and the crew was taken off early this morning and brought up to the city.

The condition of the crew was one of intense suffering. From Monday night until this [Tues-the was briefly, but effectually answered by Mr. Corson and Mr. Striver. The motion to reconsider provailed, by one majority, 30 to 38.—
Then came the final struggle, the vote on the majority. Year 41, Nays 41, obtained. passage of the bill standing, Yous 41, Nays 41,

But for the fact that the bill was introduced at so late a period of the Session, it would cortamly have presed the Assembly, and very probubly the Sounte. The feeling in both Houses, was decidedly favorable to removal, and the question will now go before the people, and enter lute the canvass of next fall. The more the subject is examined, the more, we think, it will

commend itself to public favor. Shipmonts from Billwankee. It will be seen, by our Commercial Review that the shipments of Flour, Wheat and other

grain, from Milwaukee, thus far this season, to noon Saturday, foot up as follows:

Or, reducing the Flour to Wheat, a total of 1,288,718 bushols, against about 900,000 bushels up to the same date last year.

Torrible Tornado in Himois is Great

Wrom our Chicago explanges of Saturday, we laurn that a hurricane passed over a large portion of Illinois, Friday, doing immense damage to property, and it is thought that there must be considerable loss of life. The gale seems to have crossed the Mississippi, near Oquawka, and to tions.—Chicago Journal. have extended Eastward, at least as far as Mc-Lean county, where we hear of some of its disnatrous effects. In the West, there was much hall accompanying the wind, and everywhere a great fall of rain. We hear that at Lexington, on the line of the St. Louis, Alton and Chicago Road, the storm was terrific.

The passenger train from St. Louis was blown olf the track, and the cars capsized, but fortunately, with the exceptions of a few slight wounds, the passengers escaped uninjured. Before the train capsized all the car windows, on the wladward side, were blown out, the engineer and fireman were both blown from the engine and a brakeman was also blown off one of the

in that portion of the state. The Tribune learns from a passenger, who was on the capsized train, that great damage was done by the tornade at the junction of the Peoria and Chicago Railroads. Both station-houses were unroofed, five or six empty freight cars were blown from the track, dwelling houses were unroofed, moved bodily twenty or thirty feet, or entirely demolished, and yet, smid all this wide spread disaster, he could learn of no one seriously injured. Mr. C. M. Cady, Mr. Eberhart, (editor and proprietor of the Northwestern Home Journal,) and other civizens of of Chleago, were on the capsized train, but es-

All through the western portion of the State the effects of the tornado were terrible. At Galesburg, the engine house of the railroad company and two churches just completed, were blown down, and a number of dwelling houses unroofed. Three cars standing on the track were blown off and turned upside down. The amount of the damages at tralesburg is estimatod at \$40,000. No lives lost.

Two steam mills were ruined at Oquawka and and ten houses unroofed, besides other damages done. Damages estimated at from \$10,000 to \$15,000. So far as ascertained, no lives were Wednesday night, at Palmyra, being a total loss lost.

At Gala, a large church was moved from its foundation about a foot, and a number of dwell ing houses razed with the ground.

At Pooria the damage done was enormous The hurricane struck the city about five o'clock in the evening. In the twinkling of an eye, fifteen or twenty bouses were unroofed, every *hurch spire in the city blown down, three canal boats loaded with lumbor, sunk, and the steamer Olio, with twenty one passengers on board, made a complete wreck, her cable being blown entirely away. And what seems really miracut love, is the fact that but one life was loat in all this furious disorganization of matter and utter.

It is said that a little child was lost from off the wrecked steamer .-The lumber in the yards was blown all over the city, the gas lamps were all blown down, and the signe were sent flying in every direction, windows and gable ends smashed in a whole train of cars blown off the track, and the beautiful College building on the bluff uttorly demolished.

Railroad Accident-Bridge Caved.

LAPAYETTE, Ind., May 15. An accident occurred last night on the Lafay-ette & Iudianapolis Railroad. The Cincinnati night

hut.

The accident happened at 10 o'clock this morning at Potatoe Crock, 18 miles south of Lafayette. The bridge was 10.1 feet long, the train running at the rate of 25 miles per hour, and the bridge giving way the entire train went through to the bed of the crock. The night was dark and the high water had undermined the abutteents of the bridge. Jacob Burtinger, engineer, and Mallory, iteman, was instantly killed. James Itwin, conductor, who was sitting in the front passenger car, was struck by timbors, and died in one hour. The passengers carcaped without material injury.

Already the evil effect of the late law relating to mortgages, has began to show itself. We have be-fore spoken of the disastrous consequences necessarily attendant on its passage, and now the re uits are realised, not by landers, but borrowers. Bonds and Mortrager will go begging in the street, and persons who have properly, no matter how valuable, will find the greatest difficulty in obtaining loans upency of remarks on the subject are to the effect that "the utes, that they have been compelled, in their own de-fense, to retire to some place where their finds will have some chance of being returned. Though, as good cit zins, we are all bound to respect any law, however rains for two or three weeks past have been just what our cilly or occurus, yet, human ingenuity will undoubtedly invent some process of evasion, by which the above will become a dead letter. Congressional Proceedings. WASHINGTON, May 15.
R. W. Latham, who was summoned as a witness in the Willet's Point examination, was, in pursuance of a previous order, brought before the bar of the House by the Sorgeant-at-Arms, when his statement, detailing the circumstances of his absence from the city and disavowing any purpose to be disrespectful to the House, was purpose to be disrespectful to the House, was read. Mr. Haskin of N. Y., made some explanatory remarks, and as Mr. Latham had voluntarily appeared, the latter on Mr. Haskin's motion, was or dered to be discharged on giving his testimo

ny before the Committee.

Mr. Smith of Ill., from the Select Committee nr. amun or m., front the Select Communer, to which the subject was heretofore referred, presented a bill to apportion the clerks and messengers of the several Departments among the States and Territories and the District of Columbia.

The House then considered the private calendar.
The bill for the relief of Bailey & Livingston. and others, by refunding the duties on merchan-dize destroyed by the great fiire in New York in 1845, was, after a longthy debate killed by 15 majority. Adjourned.

Senate.—Mr. Gwin, of California, presented

Bonds and Mortrager will go beging in the street, and persons who have properly, no matter how valuable, will find the greatest difficulty is obtaining loans upon it. We have seen parties who came here with the intention of placing their foods scourely on long time at logal rates, and who are no thoroughly disgusted with the absurd mediting of our Legislature, with already good laws, and the framics of so many redictions stated who have for the prisoner released, but, his good laws, and the framics of so many redictions the hours discourabled he appropriate the prisoner released, but, his readers help of discourabled he appropriate the prisoner released, but, his readers help of discourabled he appropriate the prisoner released, but, his ordors being disregarded, he professed himself unable to enforce them.

Mr. Gwin spoke warmly on the subject of

Mexican outrages on American citizens, and hoped, ere this Congress adjourned, the govern-ment would send a ship of war to that coast, to demand reparation.

The prisoner is the only survivor who can tes-

tify to the Sonora massacre of Americans, by the very party who invited them to Mexico.— The subject is referred to the Committee on For-eign affairs.

Mr. Seward introdused a joint resolution to authorize the President to give notice to the Government of Hanover for the abrugation of the treaty of 1838, which imposes a restriction

on our commerce.

Mr. Orittenden, of Kentucky, presented the petition of T. P. Staffner, praying for an amondment to the act of March 3d, 1857, which grants concession to the Atlantic Telegraph Co., to the effect that the subsidy granted by that act be extended to all Atlantic lines.

tended to all Atlantic lines.

The petition was ordered to be printed, and referred to the Judiciary Committee, inasmuch as it may involve questions of law.

A debate ensued whether the general appropriation bill, or the business of the District of Columbia should be taken up.

The appropriation bill was finally taken up by a vote of 88 against 22—whereupon Mr. Brown, of Miss., said that all his labor was thrown away, and he tendered his resignation as chairman of the District Committee. After a few minutes spent in the attempt to adjust matters, Mr. Hunter widdrew the appropriation bill.—

R Johnea, B Dam WALKER W Bryant, Chicago J Rugreen, N Y Discher, N Walker, N Walker, N Walker, N Walker, Mr. Hunter withdrew the appropriation bill.— Harmony was restored and the business of the District went on. It will continue all day. Several bills relating to District of Columbia

were then passed. Adjourned. Wisconsin Legislature. Madison, May 15.

Assantia.—After the transaction of some business, the subject of the Capitol Removal came up for linal action. A call of the House had and members brought in. The vote was then taken. Ayes 40; and noss 39.

Mr. Knowteen changed his vote while the clark was casting up as he understand the bill terman and French Ten Thalers, 7 00 clerk was casting up, as he understood the bill was passed so as to reconsider—vote reconsidered the last week well supplied, and priess range form 2 50 for common, 8 00 for sale, 8 50 for extra cattle, per hundred, live weight. Milwaukee fought well, but it was understood
the it could not pass the Senate.
Adjourned to 24 r.m.
SENATE.—Mr. Davis from the Committee on State Affairs, presented a majority report on the bill for continuing the capital extension, and recommended that it be indefinitely postponed. A communication was partially read from Mr Rycraft, the contractor, which was deemed in-decorous by many Senators. After discussion Mr. Rycraft had leave to withdraw the commu-

on. Lieutenant Ives, in his official letter, states that the exploration of the Colorado has so far progressed, that Mormons do not appear to have been successful in conclinating the Mohaves.— The latter are jealous of their approach. A party had been sent to examine the route from the Morman road to the Colorado River south of the Big canon, which work, with the exploration of the valey of the Virgin, would be finished in the course of two weeks. When this information has been obtained, the practicability of the route as a channel of communication from Utah to the Pacific will have been determined—this is one of the most important objects of the expe-

dition.

The balance of the House proceedings were of the same unimportant description.

The Minnesota Senators have drawn lots.-Gen. Shields drew the term expiring in March, 1859, and Mr. Rice that expiring in March, Despatches from Lieut. Col. Simpson, dated Leavenworth, May, 7th, state that the 6th in-lantry, under command of Lieur. Col. Andrews, and n company of Engineers, commanded by

Lieut. Durne, left that day, en route for Utah. The regiment would go via Fort Kearney, thence diverge from the Oregon Route as far as the South Fork of the Platte, and thence through the black hills to Fort Bridger. This route was surveyed and located by Lieut. Bryan, in 1858, and is one hundred and seventy miles shorter than the old one.

General Smith was expected to arrive at For

Leavenworth on the 9th inst. Later from Havana and the Plains New York, May 15. Letters from Havana mention the detention by British cruisers off the Caban coast of other

American vessels.

The book Glenburn recently arrived from Antwerp was boarded by a British officer, who told the Captain that his orders from Jamaica were to board every vessel they met on the coast.— When the ship Grotto was poorded at Sagua, her When the smp errotto was boarded at Sagua, for Captain, it is said, peremptority ordered the British officer and crew to leave his vessel.

A dispatch from Washington says the war department has received dispatches from Gao.

Johnson, dated Fort Scott, March 14th. A large train of provisions was within two days' march of the camp. Say was also the asstant wall, being the camp; as was also the eastern mail, being the first efficial mail since September, Mr. Jones, the contractor, had decided it advisable to balt until he should be reinforced by Gen. Johnson, to whom he had sent for assistance, a rear. The Mormons were also seen in large numbers on the bills.

Verdict of the Jury on the N. Y. C. H.

Werdiet of the Jury on the N. Y. C. H. R. Hisaster.

Urice, N. Y., May, 15.

The coroner's jury on the case of the Sanquiot diseaster, have agreed on their verdict. The finding of the jurors is understood to have been quite unanimons. The verdict is—"We find that the persons whose bodies have been viewed by us, came to their deaths by the giving way of the bridge of the N. Y. C. R. R. crossing the Sanquoit Creek, in the town of Whitestown, Oneida Gounty, on the morning of the 11th of May, and they were all passengers on the Cincinnati Express Train, coming East.

The deaths were caused by the insecurity of the bridge, owing to the same being decayed and rotten. A portion of the bridge was constructed of inferior timber, the same being basiard elm. We find the deaths were caused by colpable neglect on the part of the New York Central Railroad Company, in not causing the bridge to be properly examined."

Destructive Fire. New Albany, May 15.

The Machine shep of the New Albany & Salem Railroad, was burned at 1 o'clock this morning. Seven lecomotives, two or three passenger cars and all the machinery destroyed, loss \$250,000, insured \$10,000.—Supposed incendiaries.

TAYOULD again announce to the citiscus of Milwaukee, and the Isadies in particular, that I have some Right Hundred Dollars worth of Dry Gooda on hand, calculated for the apring and summer wear, which I will sell at private sale. It was my intention to have sold the goods all off at auction, and would prefer doing so, but it will prevent the ladies from jurchstage many articles, as they do not attend auctions, and in fact they should not, except at private houses, where there may be sales of furniture. It therefore will give to all, for thirty days, an opportunity to come and get any article i may have in Dry Goods, at a discount of thirty per centiless that any one else will red! I do not wish to injure trade, nor do I wish to cut the price of goods down, I have too much sympathy for merchants, that I would recra to do anything that would injure them. I have been a werehant once myself, and all I made while being one you might have put in your Eye. I am an auxitioner, my business is to sell all goods that are rent to me, for all I can get for them. I try always to do what is right. I may in some instances ore, through the hurry of business, but my intrulients to do right. The Admission of Minnesota. The admission of Minnesota Into the Union, immediately after the consummation of the Kansas swindle, is a that which carries with it some tions were. On the 10th the operations, comsignificance. Every possible means were adopted by the Lecompton mon, to stave off the admisof the Kansas matter, fearing that her members of Congress would not vote to bind slavery upon Kanses. There can be no doubt but that this

to ber present one, and had her members of up to the stone bridge, the large Imambaragh, to ber present one, and had her members of Congress been Republicans, instead of Danie crais, there is little doubt but that she would have been rejected. If we take Kansas, as a precedent, such would certainly have been the processor of the British. We now extract their muskets or matchlocks once, made a wild from Mr. Russell's letter. precedent, such would cortainly have been the final manouvre of Outrand, the city was in coma new state, depends, not upon the manner in from Mr. Russell's letter . which her Constitution may have been formed, but upon the colors under which she comes in So much for Democratic impartiality ! Public Southment in Kansas.

We have said before that it would be an insult to the patriotism of the citizens of Kansas, to suppose for a moment that they would accept the vilocifer made to them by the Government. They have proved themselves true to the cause of Freedom, and we believe they will sustain their honor to the last, and rebake the administration and its backers in the most emphatic manner. One may form a pretty correct idea of the sentiment which pervades the public mind in the territory, by reading the following extracts from the Kausan press: From the Quindaro Chindowan, May 3.

The adoption of the English substitute by Con gross lids the people to putso and survey the teld upon which the battle is now to be fought. What shad be done in the crisis just upon us, is a question of great moment, and jet one which will be readily answered—answered spontaneously and at the same moment and in the taneously and at the same moment and in the same spirit by the sympathetic impulses of every true heart in the territory. It is already answered: The flat of the people is just as surely proneumeed as though it had been heralded by trampet voices from every hill top that diversities our beautiful prairies. No new manifeste mead be made; the purpose which is to prevail, the determination which must conquer, are known to the world. The unfair submission of the Legenghern constitution will not shield it. Lecompton constitution will not shield it the heart of the swindle, and thus struck down, the heart of the swindle, and thus struck down, the heart of the swindle, and thus struck down, the heart of the swindle, and thus struck down, the heart of the swindle, and thus struck down, the struck down. it will be trampled into the very earth, whilst its memory, like the ghost of Banque, will terment the party which cour tonanced its creation

Our duty, as it appears to us, is plain, though it be painful. With that devotion and magua-

As we go to press, we learn that the Locompton bill, as reported by English from the Committee on Conference, has passed both branches of Congress—in the House by nice majority.

Lecompton is therefore passed—provided the people of Kausas vote to accept a proferred land grab, otherwise we remain in a territorial condition until we have 04.000 inhabitants.

Thursday March 11.—Our guns and mostars, which were put in position yesterday, opened on the Begum's Palace, and on the second line of the enemy's delences. This fire proved very destructive, and our heavy guns battered down stone walls and broached the brick and earth works of the enemy. It was auderstoed that the Begum's Palace was to be assaulted at 2 o' clock in the afternoop, but the front was so well screened by out-houses, and by thick earthworks and parapots, that our artillery, powerful as it was, did not make sufficient impression on the place to justify an attack till two hours later. I waited in common with others, for a long time, if the period arrived to return to camp, in order to witness the state visit of Jung Bainador to his Excellency, the Commander-inorder to witness the state visit or Jung Janedoor to his Excellency, the Commander-inUhiof. Until the right of pottlon is rovided, the people of Kansas will retain the proregative to sound up an application for admission into this Union as a state, and the day is not far distant when a national Congress will override the dictum of an imbeelle executive, and invest fine Kansas with all the dignity and every immunity of a sover-sign state.

HORTON'S PATENT G. B. BINGHAM & BRO., Sole Manufacturers in Wisconsin.

THIS MACHINE is of recent invention, and surpasses all others in use for its perfections as a shorough Separator and Eccurer. It has given entire manifestion in New York, Pennsylvania and ether States where it has been introduced, and we are condeen it is better adapted to the cleaning of Western grain than any other ever introduced into this State. It is fire yood, not liable to get out of repair, requires but little power to ran it, and the couring cylinder so constructed as to render it unnecessary to be renewed for years. We respectfully invite all Western Millers to give us a call, and examine our machine, at the Bay State Foundry, riforida at Milwavkec, Wis.

SHERIFF'S SALE. [Sentine].

THE DAILY SENTINEL.

[From a Correspondent of the Washington Union].
The Great Diaryland Black Cat Case. "If you must a black cat, shave him to the tall." This tremendous case is now pending before a judicial tribunal of the State of Maryland, and presents many remarkable features of the ingenenty and speculative capacity of the defendant in the case. For the benefit of the logal profession and gentlemen generally who may wish to enter a new field of speculation. I will give a short bistory of the case as I heard it.

Some few years ago a gentleman of Maryland conceived the idea that an immense fortune could be realized by the rearing of black cats for conceived the idea that an immense fortune could be realized by the rearing of black cate for the sake of their skins. The principal obstacle to the plan was the impossibility of keeping the animals together and preventing them from wantering off, as their activity, assisted by the penetrating qualities of their claws, would enable them to defy any enclosure; and at last, after much thinking, the idea suggested itself to his mind that water was the only bactier that the cats would not puss. Being in possession of an island that appeared to be just saited for the experiment, he found all obstacles to the success of his plan removed, and set about organizing the

his plan removed, and set about organizing the his plan removed, and set about orkenting the affect.

He employed an agout, and put out a circular, in which he stated that he would give so much a head for every black cat that could be got.

This advertisement was circulated throughout all the counties bondering upon the Chesapeako buy, and the negroes got hold of it. In a very short time all the black cats through those counties were stolen by the negroes and sold to the agout, who had depore satabilished at different convenient points. Ohl ladies missed their favorite cats, and mourned them as dead—but the negroes, incided by the price offered, spared house. In this way, one hundred and tiffy black eats wore collected and transported to the land; and the agent took up his abode there like smother Robinson Crosson, as superintendent on the island; and spont their time in either having no other supply of food they became hungry and desperate, and reamed about the last became dangurous, and the agent wrote to his employer a statement of these lacts, accompanied by a request to know how he was to feed them. He wrote back for the agent toset a companied by a request to know how he was to feed them. He wrote back for the agent toset a companied by a request to know how he was to feed them. He wrote back for the agent toset a companied by a request to know how he was to feed them. He wrote back for the agent toset a companied by a request to know how he was to feed them. He wrote back for the agent toset a companie of negroes to work to eatch and open oysters for the cats, which order was carried out. The He compleyed an agent, and put out a circular, ie of negroes to work to eatch and open systems for the cate, which order was carried out. The for the cats, which order was carried out. The cats, having the alternative of cysters or starva-tion before them, very naturally chose the for-mer; but not being accustomed to such unnatural lood, a species of cholera broke out amongst

quaint him with the result of this new treatment, which nows was accompanied by a modest request for the payment of his wages—for this ent experiment occupied a space apwards of a year. The latter was so indignant at the conduct of both the agent and the cost that be fatly refused, and the consequence of his refusal was a suit brought by the agent to recover his wages.—This suit has been defeated for some two years, and during its progress I have become acquainted with the facils.

As far as the theory of the apsculation went, it was a magnificent idea. The skin of the black cat is worth in floation to cents. The cats, I am teld, cost just that sum. It was supposed they

cat is worth in Boaton 5 o cents. The cats, I am told, cost just that sum. It was supposed they would increase exactly t utold per annum.—
Then say, first year, number of cats, 150; second year, 1,600; third year, 16,000; from which there could be obtained 5,000 toms for usla, bringing \$2,500, and leaving 10,000 stock cats romaining, which at the above ratio of increase, would give the fourth year the enormous sum of 100,000 ents upon the island, after which all the supplus over and above the last number, were to be caught in box-traps, and the skins to be sold suspits over any approvements and the skins to be sold to Boston furriers. This stock of 100,000 cots were to produce 1,000,000 per annum, and the revenue consequently to be derived from the island would be in the neighborhood of \$600,-COO per annum.
The principal decades to the enterprise was

The principal drawback to the enterprise was the utter inability of the cate to organize or hand together for the purpose of assisting each other, and thus incilitating their hunting operations; so, after a deep relication upon the subject, it was determined to import a couple of wild cals from South America, whose admixture with his cats would not only add strongth to the body and value to the fur, but whose executive qualities night be brought to been in organizing the original settlers into large hunting pack—and thus enable them to succeedinally pursue the squirrols and ground mice with which the island abounded—and, in fact, to teach these unfortunate animals, who, term from the comfortable firesides, were of course ignorant of the necessities of eavage life, the mysteries of the chase.—If o really found a friend willing to procure him the new cate. I'm afraid this friend regarded the whole thing as a joke, but at any rate he was faithful to his promise, and as soon after his arrival in Rie Janeric as possible he set some was maintain to an promise, and as soon after and arrival in Rio Janerio as possible he set some aftives hunding, who caught two young figer cats of extraordinary fercotty, which he placed in a cage and shipped to Baltimore.

When he had almost forgotten the matter, he

was surprised by the receipt of a letter apprising him of the arrival of those wild benets, and was requested "to come forward, pay charges and take them away." He hurried into town and tound these young ligners about the itee of a medium setter dog, and a bill of charges governal hurried.

THE CHEAPEST HOUSE IN THE CITY FOR diem setter dog, and a bill of charges soveral nur-dred per cent. more than he acticipated. He paid it, and ordered two negroes to convey the boasts in a cart out to his country home, for he wished to exhibit them before he sont them down to take command of his island cats. On the read out to his place the cats glared and spit at the negroes in such a fleudish man-ner that, to get rid of them, they turned the cage

over on the bar side, whereby one of the cats was smothered. The survivor, being deprived of his mate, be-

came more ferocious than over, and it became a question whether it would be safe for the cats question whether it would be sale for the cate upon the island to turn it loose among them.—
The owner was very much worsed until his negro man engagested that they should try the experiment by putting a tame out into the cage.
The idea was the very thing. A cast was procured and introduced into the cage. In about two minutes it was torn into abreds and interly devoured. Of course it would have been maduess. to turn the heart locae on the island—so the idea was abandoned, and it has been kept aver since as a small menageric attached to the gouldman's house, with the exception of a periodical visit to the Agricultural Fair in Hillimore, when it is placed among the poultry, and causes the hearts of the chickens to die within them.

This is a short bistory of the great black cat. schome and the suit arising from itschedule and the sail acting near the visiting and the state of the sail ability to the State sufficient to sail to the matter, is more than I am able to say, Annavous, Md., May 3, 1868.
